

Proposal for Revised Management Structure of

KELVIN PLAYERS

JOB DESCRIPTION FOR THE ARTISTIC DIRECTOR

What does the Artistic Director of Kelvin Players do?

Good question!

The Artistic Director of the Club is the person who has overall responsibility for the programme of live theatre that we present.

This means that they develop an annual programme of artistic events. This can include productions, rehearsed readings, training opportunities. The Artistic Director has freedom to explore and innovate when developing the artistic programme.

The AD will develop the Club's artistic vision alongside the Management Committee and the Executive Group.

The AD will ensure that the plays selected for performance provide equality of opportunity to members as well as developing the members' artistic and creative expertise.

The AD will explore creative opportunities within the Club and within the wider creative area we are located.

They are a member of the regular Management Committee meetings where the day-to-day business of the Club is monitored and reviewed.

They also Chair the Artistic Development Group; a newly-formed group which is concerned with the Club's artistic programme and membership development.
